

COMMUNITY-LED SERVICES ARE KEY TO REACH PEOPLE

Extension of community-led differentiated service models, including for HIV testing and treatment, take-home opioid agonist therapy, PrEP, and PMTCT

Building capacity of civil society organizations for maximum impact

Innovations to expand services and respond to communities' needs in emergencies, including COVID-19

700 000 people living with HIV and key populations were reached with information on human rights, stigma, discrimination, violence, COVID-19 and HIV services (from Sept. 2020 to Dec. 2021) via 60 community-based organizations in 19 countries of Latin America and the Caribbean

346 000 vulnerable people were reached with community-led HIV services in West and Central Africa by 179 capacitated organizations across the region

12 396 pregnant women were reached during ante- and post-natal care in Eswatini, by 286 community-based mentor mothers trained on prevention of mother-to-child transmission of HIV and syphilis

COMMUNITY-LED MONITORING FOR BETTER PROGRAMMES AND CLOSING THE GAPS

Communities supported as part of the Global Partnership to eliminate all forms of stigma and discrimination

Data analyses to generate evidence on the needs of specific population groups

24 countries implemented community-led monitoring systems

10 countries completed a regional assessment led by the Eurasian Women's Network on AIDS on COVID-19 impact on sexual and reproductive health, gender-based violence and treatment services for vulnerable women and women living with HIV

17 countries rolled out the People Living with HIV Stigma Index 2.0

UNAIDS WITH AND FOR COMMUNITIES

KEY RESULTS IN 2020-2021

ELEVATING THE VOICE OF COMMUNITIES AND PROMOTING THEIR LEADERSHIP FOR A PEOPLE-CENTERED AND RIGHTS-BASED HIV RESPONSE

Empowerment of people living with HIV, women and girls, young people and key populations

Joint advocacy for more protective HIV-related national laws and policies

Collaboration to prevent and eliminate stigma and discrimination, gender-based violence and monitor rights violations

U=U (Undetectable Equals Untransmittable) campaigns in many countries in collaboration with networks of people living with HIV and key populations

First regional network of people living with HIV in the Middle East and North Africa region established

30 000 women in Zimbabwe were reached with gender-based violence information and services via SASA!, a community mobilization initiative for preventing gender-based violence

INVESTING IN COMMUNITIES IS VALUE FOR MONEY

Guiding investments, mobilizing resources and promoting sustainable financing models to achieve results at community level

10 countries explored alternative models for sustainable financing of community-led responses

5 countries piloted a social return on investment of social contracting analysis
